

WELCOME TO HAAS ENVIRONMENTAL, INC.

Haas Environmental Inc. was established in 1996 and has become one of the primary service providers to the Steel Mill Industry. We are a total industrial cleaning service company headquartered in New Jersey with divisions located near many major cities in the eastern half of the United States.

Haas provides customers with reliable and safe response to their needs. We strive to remain on the cutting edge of the Industrial Cleaning Services industry, using innovative ideas for cost effective service without compromising integrity and safety.

Soon after the devastation of Hurricane Katrina, Haas Environmental responded to the Disaster Relief effort in the New Orleans area, vacuuming over 16,000 catch basins and jetting well over 400 miles of drainage pipe. To accomplish this, Haas dispatched over 50 Vactors, Jetter and Combo units with qualified technicians and support equipment until the task was completed.

Haas' commitment to the municipal marketplace has intensified. Our expertise and knowledge of Vacuum services in the Steel Industry, perfectly compliments our ability to service municipalities. Please use our link () to view our complete list of services.

Haas Environmental is a Safety First organization with common sense business savvy that meets our challenges with uncompromising integrity
